

## How to Authenticate This Official PDF Transcript

This official PDF transcript has been transmitted electronically to the recipient, and is intended solely for use by that recipient. It is not permissible to replicate this document or forward it to any person or organization other than the identified recipient. Release of this record or disclosure of its contents to any third party without written consent of the record owner is prohibited.

This official transcript has been digitally signed and therefore contains special characteristics. This document will reveal a digital certificate that has been applied to the transcript, and for optimal results, we recommend that this document is viewed with the latest version of Adobe® Acrobat or [Adobe® Reader](#); it will reveal a digital certificate that has been applied to the transcript. This digital certificate will appear in a pop-up screen or status bar on the document, display a blue ribbon, and declare that the document was certified by Baylor University, with a valid certificate issued by GlobalSign CA for Adobe®. This document certification can be validated by clicking on the Signature Properties of the document.

The blue ribbon symbol is your assurance that the digital certificate is valid, the document is authentic, and the contents of the transcript have not been altered.

If the transcript does not display a valid certification and signature message, reject this transcript immediately. An invalid digital certificate display means either the digital signature is not authentic, or the document has been altered. The digital signature can also be revoked by the transcript office if there is cause, and digital signatures can expire. A document with an invalid digital signature display should be rejected.

Lastly, one other possible message, Author Unknown, can have two possible meanings: The certificate is a self-signed certificate or has been issued by an unknown or untrusted certificate authority and therefore has not been trusted, or the revocation check could not complete. If you receive this message make sure you are properly connected to the internet. If you have a connection and you still cannot validate the digital certificate on-line, reject this document.

The current version of Adobe® Reader is free of charge, and available for immediate download at <http://www.adobe.com>.

### ACCREDITATION

Baylor University is accredited by the Southern Association of Colleges and Schools Commission on Colleges. Individual colleges and programs are accredited by appropriate professional organizations. Information about accreditation is listed in the University catalogs.

### ACADEMIC CALENDAR

The Law School operates on a quarter calendar, and its credits are measured in quarter credit hours. Some Graduate School programs operate on unique calendars, and the credits for those programs are measured in semester credit hours. The remainder of the University operates on a semester calendar, and the credits are measured in semester credit hours.

### REPEATED COURSES

When a course is repeated, all courses and grades appear on the transcript. Grades for repeated courses taken by undergraduate, seminary, and law students will be marked in the Repeat Column (labeled RPT on the transcript) with either the letter E, indicating that the grade is Excluded from the calculation of the GPA, or the letter I, indicating that the grade is Included in the calculation of the GPA. Courses that do not contribute grade points to the GPA (such as courses with zero credit hours, credit/noncredit courses, and courses taken pass/fail) may also be marked with the letter I, indicating that the course was Included for credit in each marked instance.

In the case of law students, the second occurrence of a course can earn a maximum of 2.00 grade points for the calculation of the GPA. In such cases, any grade earned above a C will be marked with an asterisk next to the grade to indicate that only 2.00 grade points were awarded. For graduate students, all grades are automatically included in the calculation of the GPA unless otherwise noted. More information on current and past course repeat policies may be found in the appropriate catalogs.

### POLICY REGARDING ELIGIBILITY TO RE-ENROLL

The student is considered to be in good academic standing unless otherwise noted.

### GRADES, GRADE POINTS, AND GPA CALCULATION

The grade point average (GPA) is calculated by totaling the number of grade points earned and dividing by the number of credits applied toward the GPA. The resulting GPA is truncated following the second decimal place (e.g., 1.99672=1.99). The University does not round the GPA. This method of calculation is used for all academic purposes, such as academic standing, graduation, and scholarship eligibility.
